Vitasome supplements and Multiflask is a winning combination. What is Vitasome and Multiflask, you may ask? Just the best combination of vitamins and drink bottle, ever.

Vitasome supplements are proud of helping folks achieve their health goals. They want people to live their lives healthier and to do it with their amazing supplements. They take pride in meeting superior standards of nutritional value and they also make sure their vitamins undergo testing for purity, potency, safety and efficacy.

They figured out the solutions from getting vitamins to properly absorb, digestive degradation, odor and to waste problems common to most vitamins. With their patented liposome delivery technology, Vitasome is an innovator in the vitamin market.

I was recently sent a box of their supplement Glutasome. Glutasome is made to help promote healthy skin, diminish signs of aging and supports mental clarity. Oh, and it's made to give you an energy boost.

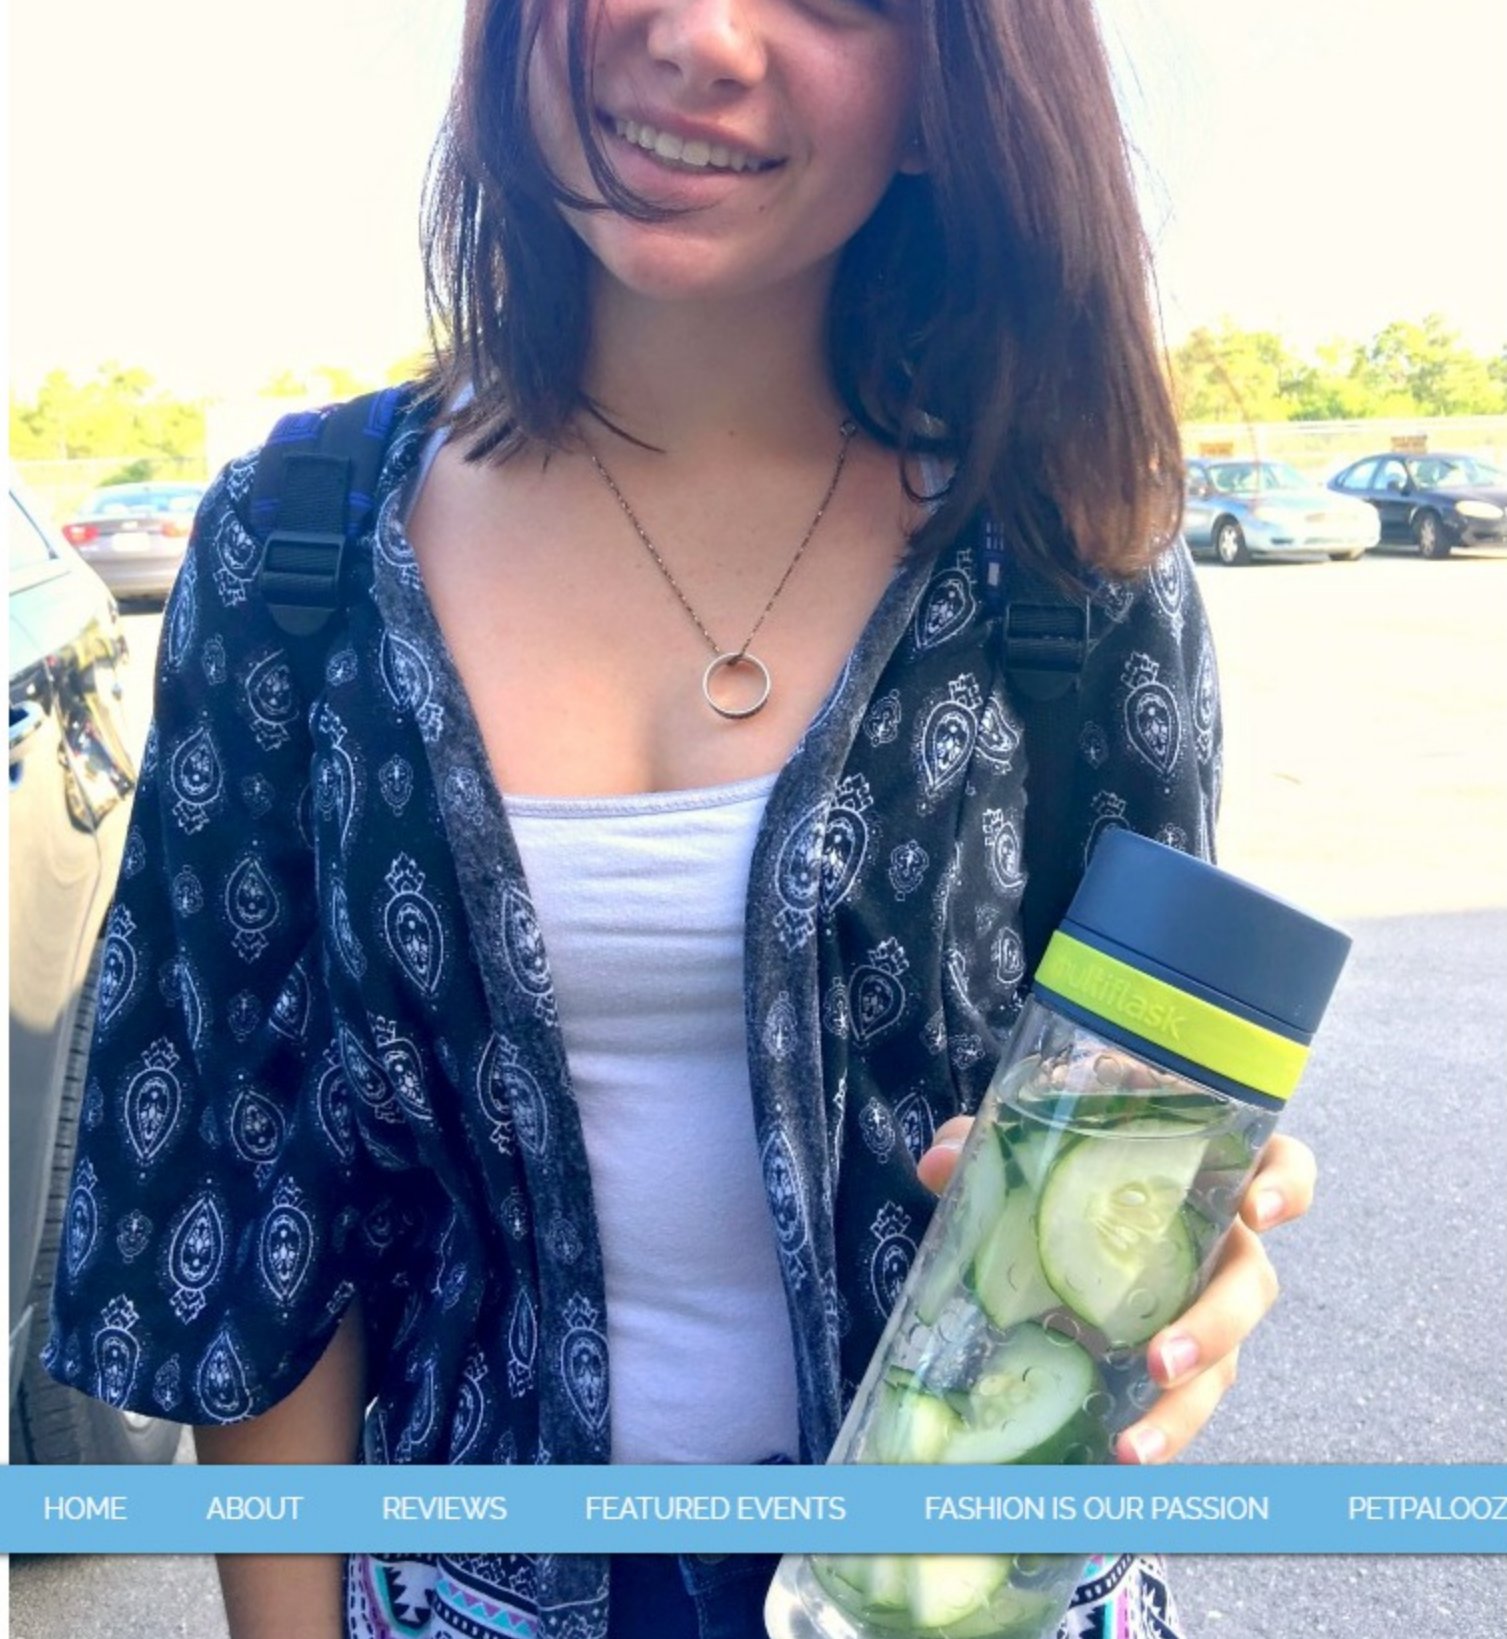

Looking at it from someone who is starting to feel the effects of aging, I love this combination of mental and physical health. I want that healthy glow to my skin that Glutasome will provide. I watch my daughter struggling with skin issues and it makes me sad. She has fought them for some time now and I hope that when she's grown up that they don't plague her as they do right now.

Glutasome is diabetic safe, alcohol free, all natural lemonade-raspberry flavoring, zero vitamin aftertaste, non-gmo, soy free and 100% vegan.

To mix up Vitasome, I use the MultiFlask. The Multi Flask is a multipurpose 6-in-1 bottle used for all your hydration needs. This system is really amazing. You can drink hot or cold drinks, infused beverages, insulated (hot or cold), fruit infused beverages and powered beverages.

The Multiflask is made of the highest quality BPA/BPS free components that when assembled can give you just the drinking container that you need. My daughter has taken it and won't let me have it back unless I literally go into her stuff and take it. Honestly, I'll have to get her one of her own so she will leave mine alone.

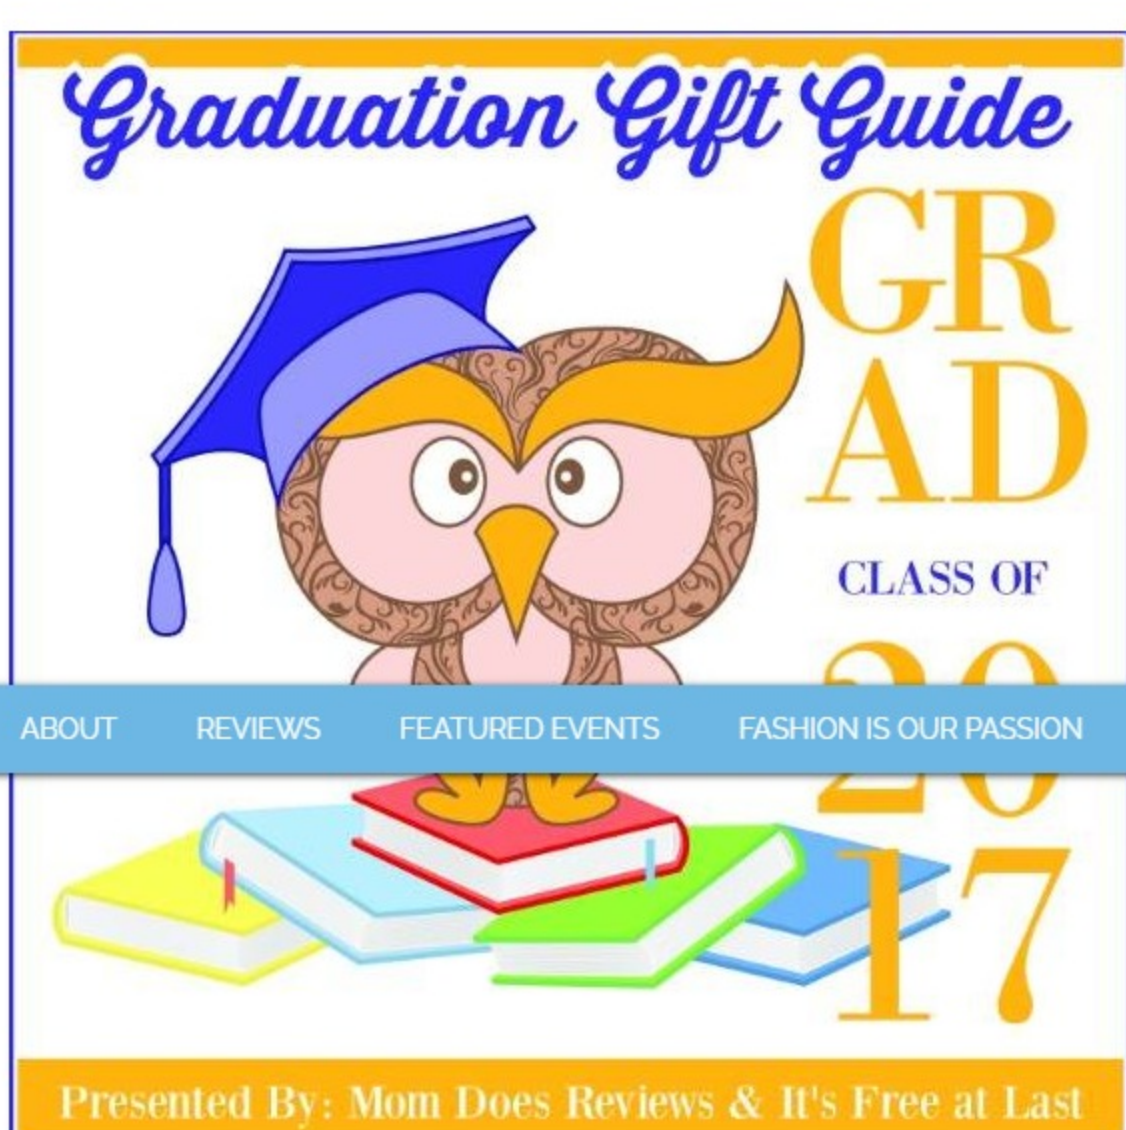

She has made some pretty neat infused drinks with this bottle. Her favorite so far, the cucumbers. She sliced a cucumber very thin and used the infusion insert. She takes it to school and she refills it with whatever beverage she wants. There is a lid to keep it spill free, it's easy to take apart to clean and it's very appealing to look at...so clear!

Vitasome and the MultiFlask are both available on AMAZON!

You just can't beat a combination of Vitasome and the MultiFlask. For more information, visit them online.
